Hi U & Chandi absolutly rokecd on BGT! Well done !I am a lighting & robotics engineer in India working on sound & light shows based on animals.You have sort of inspired me to do a doggy show based on the 12 notes in an octave with 12 robotic dogs(13 actually with the next C) of varying heights who move their mouths and bark in tune. I will program them to bark out tunes , starting with Doe-a-deer' (what better to start with) from S of M.TC & a big God Bless##imported-begin##Kait##imported-end##

What a lovely celebration of Doris' life! Doris has been a part of my life for over 50 years. My mother & I took painting lessons from her. I worked for Jerry for a number of years and he was mentor. Doris & Jerry were special friends both in and out of church. I thank God for them being a part of my life. Doris was a beautiful lady.with love,Connie##imported-begin##Connie Arnold Gates##imported-end##
