“ Mamaw Sue was my best friend! She raised me, she took me and my cousins to the park! I loved her so much! I have a lot of memories with her but one special one was when we went out to eat, and she couldn't eat celery because it was too big. I cut it up in baby pieces for her to eat it. After that day every time I called her, she would say that I was such a good little girl because I cut her celery. I lived with mamaw sue for a couple of years. Whenever I needed a babysitter she would watch me and my cousins! She would order us pizza. Mamaw Sue would take my cousins and I to Smith Park and stop at Mcdonalds on the way to the park! She was such a great-grandma! We used to have photo shoots out in the yard when I was little. She would give me an umbrella and I would pose with it and she would take pictures! She taught me how to do a cartwheel with a lot of practice! On Sundays, we would watch the football game with Uncle Chip! Uncle Chip would make us good food. We would all watch it. Even though I don't get football! She was the best grandmother in the world! I love you, Mamaw Sue!

Love, Joanna <3

“ Sue was my best friend. She shared many ball games with myself to watch her great grandson Jayden play. She loved us all unconditionally. She gave her heart so freely to anyone she was around. When we were together we shared so many laughs and I could talk to her about anything.Our birthdays were on the same day and for so long now I had her to share it with. She was my heart and one of my greatest gifts from God .I Love you Sue you were an amazing friend and the greatest grandma Jayden could of ever need or want. “ Sue was more then a grandmother to me she was my mother,my mom,my mommy. She was been the biggest memories in my life. From day one she held me fed me and cared for me! The impact she has had on my life is bigger then big, more huge the huge and the love she has gave me and my sisters and so many others is pure love only someone so humble can give! She is love. I can't accept that this has HAPPEND and I won't. I can't go without her love! Her phone calls. Our dinners,

talks and outings. I don't understand why this happened in the way it did. I know she would

Live to a 100 with a lot spunk still! She was a pistol and a riot and where ever she was she made a friend! I love you GrandMOMMA so very much. Thank you for the life you gave us! I am truly sorry I couldn't have those plans of you coming home with me so I could make it up to you! I will never ever forget the sound of "Mindy I love you" or "goody" as u rubbed your hands together when I brought you one of your favorites! Or you asking me where my precious babies where! Wanting a kiss! My phone no longer rings with your name on it and I find my self listening to your voice mails! I don't see you no more sitting up in your bed brushing your hair to the side! I don't get to see you get excited for the worst team in the world lol "Bengals" I don't get to have your touch no more or encouraging words of how to keep doing all I can as a mother! I didn't get to take you gifts to no more and surprise you! I hate this so very much and to say it's hard is a understatement for me grams . You was my whole world and I don't think you realized it. I did try to show you, how ever I know there was so much you deserve! I want you to tell Chip hi for me and that I love him so much and please stay so close over us! I will never stop talking to you. I will never lay you down and say good bye! I will never let you fade away from me EVER! I love u so very much!

Love

“ My grandmother my mother my world all my mom and sisters have ever known as a strong woman who was more independent then most people I know you we could always turn to her for comfort and just to vent too and work out everyday life problems with. She gave us the most down to earth upbringing yet taught us what it was to stay humble and never forget where you came from and the family that always was apart of it all. To love one another stick together. My grandma worked 3 jobs to take care of her children with no help and was in the service industry that is one of the most difficult jobs because she did not just work one shift she would go from job to job to job to provide for her 4 grandchildren and her own children . My mamaw would come home from bartending long days and nights on her feet and I would be In her bed waiting for her because she always brought me peanut m&m and Reese and would let me count all the penny's and change . She made everything fun and she had so much imagination with everything she did with us. She never gave us a boring childhood we always got out and went on adventures

mushroom hunting. Paddle boating, hiking, drives to see Christmas lights , drives to explore her childhood neighborhood Waynesville and Sandusky lake. She always gave us her last and sacrifices any love life or social life to be an amazing mother and grandmother. I can not even express the happiness my grandmother put in my life and my children's life. Life for us may have been a struggle compared to others but we had a life full of love and that is what is pure happiness and I have so many memories to look back on that some will never even know and for that my grams molded me and my family into good genuine people and I'm so proud of the mother my grandma is and grandmother and best friend. She was the shoulder to cry on for mAny of her customers and friends she never knew a stranger and would give her last to anyone. I love my gramma more then life and I will pass all the love and kindness she instilled in me to my children and grandchildren. She will always always be in everything I do

“ I love you mamaw! She raised me and my 3 sisters. We we're a big part of her life growing up as she was ours. She was very selfless. She loved baseball season. She would sign us up and take us and she would be the loudest one there. She knew everyone and everyone loved her. I miss her so much. My favorite memory as a child growing up was she would take my sisters and I outside to look at the stars. She would talk to us of memories she had growing up and how she loved her mother. Some of those nights we would hear an owl and she would always say that was her mother watching her. I am so blessed to have a mamaw that gave her life to make sure me and my sisters had what we needed. I am going to miss her voice and the loud laugh she had. I am going to miss hearing her call me Angel Annie and the I love you! I love her and she will be greatly missed!
